LETTER TO YOUNG LADIES

From the Treasurer of the Young People's Christian Temperance Association.

Miss Elizabeth Caine, Fond du Lac, Wis.

The advent of womanhood is fraught with dangers which even careful mothers too often neglect. Some of the dangers are belated and suppressed menstruation. "The lily droops on its stem and dies before its beauty is unfolded." It is well demonstrated in Miss Caine's letter that Lydin E. Pinkham's Vegetable Compound is certain to assist nature to perform her regular duties, and young women who are irregular, or have any allment peculiar to their sex should hasten to commence the use of Lydia E. Pinknam's Vegetable Compound, and then sit down and write a letter to Mrs. Pinkham telling her all about their illness; she will give the case careful and motherly consideration, and advise just what to do to get well; she considers such letters strictly confidential; she will charge nothing, and thousands of young women owe their present health and happiness to her advice.

Mrs. Pinkham invites all young women who are ill to write her for advice. Address Lynn, Mass., giving full particulars.

MISS ELIZABETH CAINE.

"DEAR Mrs. PINKHAM: - I want to tell you and all the young ladies of the country, how grateful I am to you for the benefits I have received from using Lydia E. Pinkham's Vegetable Compound. I suffered for eight months from suppressed menstruation, and it affected my entire system until I became weak and debilitated, and at times felt that I had a hundred aches in as many places. I only used the Compound for a few weeks, but it wrought a change in me which I felt from the very beginning. I have been very regular since, have no pains, and find that my entire body is as if it was renewed. I gladly recommend Lydia E. Pinkham's Vegetable Compound to everybody."-Miss Elizabeth Caine, 69 W. Division St., Fond du Lac, Wis. .

When the young girl's thoughts become sluggish, when she experiences headaches, dizziness, faintness, and exhibits an abnormal disposition to sleep, pains in the back and lower limbs, eyes dim, desire for solitude, and a dislike for the society of other girls, when she is a mystery to herself and friends, then the mother should go to her aid promptly. At such a time the greatest aid to nature is Lydia E. Pinkham's Vegetable Compound. It prepares the young system for the coming change, and is the surest reliance for woman's ills of every nature.

When you ask for Mrs. Pinkham's medicine at your druggist, do not be persuaded to take something else said to be "just as good." Nothing in the world is so good for women's ills.

CEANA DEWARD Owing to the fact that some skeptical people have from time to time questioned the genuineness of the testimonial letters we are MEMAND publishing we have deposited with the National City Bank, of Lynn, Mass., \$5,000, which will be paid to any person who will show that the above testimonial is not genuine, or was published before obtaining the writer's special permission.—Lydix E.
